Ronald Reagan

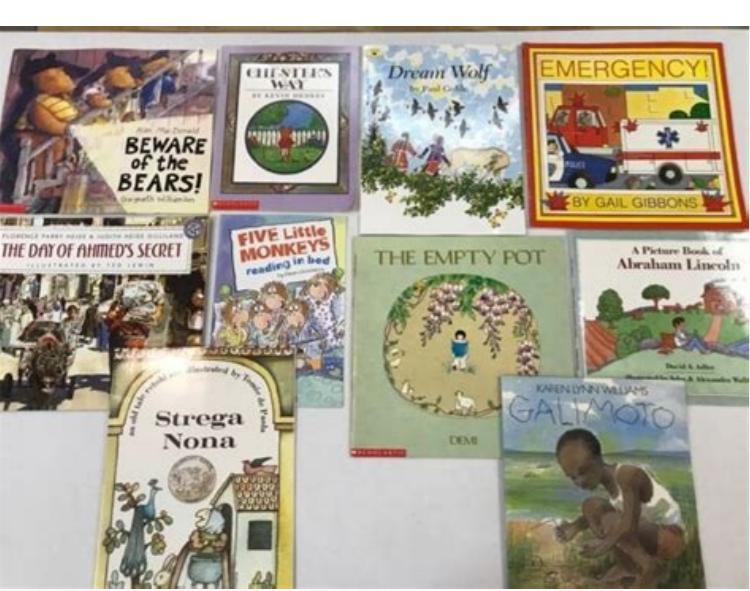

Ronald Reagan was the 40th president of the United States of America. He was a very interesting man, very different than most other presidents! He was a movie star!

Reagan was born in the state of Illinois in 1911. He lived in many different towns because his dad was a traveling salesman. Ronald loved to play sports like football and swimming; he was also a very gifted actor. After college he became a radio announcer in Iowa until he got a job in Hollywood acting in movies! He starred in over fifty different movies!

When World War II began, Ronald Reagan was drafted into the army. As time went on he became more interested in politics and was the Governor of California for two terms. Then in 1980, he became the president of the United States. He was the oldest president in the United States history.

The Cold War was going on during Reagan's administration. This was a scary time because the United States and the Soviet Union (which is now Russia) each had an atomic bomb. Everyone was very worried that either side would drop the bomb and something devastating would happen. Ronald Reagan worked very hard to gain peace between the two countries during his time of presidency.

In 2004, when Ronald Reagan was ninety three years old, he passed away from pneumonia. He was a great man with many accomplishments.
